Bad.

- Not optimized for keyboard controls.
- Not possible to rebind keys.
- Poor replayability.. this game is great i have live 3 played it loved it well done big ant and anyone else involved bravo thanks. Absolutely beautiful game. It can be a little confusing, trying to figure out where to go, but that's also part of the fun. There is a story but it's implied instead of told. It's fairly short, but there is so much packed into it. 9.5/10 for me.. This game can be summarized in 3 words: Human vacuum cleaner. What the hell? Probably the most sadistic game I ever played. I had to take breaks while playing so I don't smash my head against the wall and end the agony!!! It's even worse than CandySnake and I wanted to kill myself while playing that one.

It's not worth it. Oh, trust me, it's not worth it. It's not worth for playing and it's not worth for chasing achievements. It's not worth for anything! Well, I stand corrected. If you want to psychologically torture yourself then, I guess its worth for something. If that's the case, by all means.... All you need to see is the trailer, it's exactly how the game is. Limited abilities for the "Demon" which is basically just an alien looking thing. Big open spaces where theres a few cabins scattered about and the only way to defend yourself is behind a door and to strafe shoot it. Once you are grabbed you are dead. Maybe if the Alien didn't look like a retard when it was running and had cooler abilities it'd be cool but as of now, ain't worth it.

best gam 10/10. The game files don't run, it crashes prior to loading screen. It's 0.09 and I got ripped off!. This game for me is a must buy. So much fun.. Need some work but its brand new and has good potential. But definetly give it a little while. Beat Hazard with Spotify Support? TAKE MY DAMN MONEY.. If you like Cards Against Humanity, then this is the game for you. It really encourages imagination. Cards unlock the more you play the game, continuing to offer new and hilarious combinations. This is a must have for any Twitch streamer looking to spice up their channel a bit -- The game has seamless Twitch integration. And for those of you, like myself, that do not stream.. fear not! The game does a great job of getting you into games regardless of a Twitch account. This is also a nice way to take a break from gaming if you just want to have a few laughs and watch some people duke it out with their creative intellects. Worth the asking price. Rating it 4.5/5. Took me 2 min to reach 100%....wayyyy to long
